

OPTIMA RECESSED

RECESSED

The Optima Recessed air curtain is an economic solution for suspended ceiling systems.

The casing construction is made from galvanised plated steel and is ready to be recessed in a false ceiling. The inlet grille and outlet lamellas are integrated into a single frame. The low noise twisted cross-flow fans are driven with a two-speed external rotor motor.

This air curtain is suitable for small and medium sized commercial sites. Using air curtains in these types of sites makes internal temperature control more practical, as heat loss through these often wide doors is significantly reduced.

A manual controller with 2 fan speed selections, 2 heater stages for electrically heated units or 2 fan speed selection for LPHW and air only units, 7 metres of control cable and an IR handheld remote are included.

 COLOURS AVAILABLE White RAL9016 (standard) Any RAL colour	 MOUNTING OPTIONS Horizontal	 MAX DOOR HEIGHT 2.8m	 FAN OPTIONS AC fan	 HEATING OPTIONS Electric LPHW Air only	 LENGTHS AVAILABLE 1.0m 1.5m 2.0m
